1. Execution Summary
The Equal Employment Opportunities Trust defines EEO as “eliminating barriers to ensure that all employees are considered for the employment of their choice and have the chance to perform to their maximum potential. EEO strategies and sound HR practices enable employers to recruit the very best people from the diverse population, making the most of their skills, creativity and energy.” The EEO programme is thus a component personnel policy that complies with the principle of being “good employer”. Outlined in this document is a draft EEO programme for Maori and Pacific employees, which can later be appropriately adapted to cover other target groups. Reference is made to all Auckland District Health Boards (ADHB) policies, procedures, processes, guidelines and written documents.

ADHB, and the Ministry of Health, advocates an evidence based approach to decision making. This document practices this approach as well as our underpinning values.

2. Background
ADHB strategic direction
A well consulted and appropriate EEO programme will produce real workforce benefits to ADHB that are financially prudent and sustainable. Regionally ADHB are the first DHB to produce a draft programme and by legislation we must produce a programme by the start of 2006 financial year.

Research in the area of Maori and Pacific workforce recruitment, retention and development has taken place over many years. With the introduction of the EEO programme, ADHB has the opportunity to move this research forward into actions of tangible benefit. It is noted at this early stage, that not all Maori and Pacific people have the same views, aspirations and needs and this programme will proactively seek to avoid stereotyping. The EEO is also a means of recognising

---

1 These are all ethnic minorities, women and disabled persons
the aims of Maori thereby contributing to the spirit of partnership envisaged by the Treaty of Waitangi.

**National Workforce Plans and Initiatives**

Due to obvious workforce implications, EEO actions identified here link into priorities identified under the following National Plans and committees:

- District Health Boards New Zealand Workforce Action Plan – Future Workforce
- Health Workforce Advisory Committee
- Raranga Tupuake – National Maori Health Workforce Plan

Further the following organisation wide plans are also linked:

- HR Strategic Objectives and Priorities 2005-2008
- ADHB 2006/2006 Objectives
- Priorities for Maori and Pacific Health teams

**3. Crown Entities Act**

**Obligations**

We are required to work towards becoming a “Good Employer”. Within this document the following provisions of this definition are addressed:

- Produce and implement an EEO programme (Action Plan)
- Impartial selection of suitably qualified performs for appointment
- Recognise Maori aspirations and employment requirements and the need for involvement of Maori as employees of the organisation
- Opportunities for the enhancement of the abilities of individual employees

**4. Appropriateness for ADHB employees and community**

Objectives under the legislation are devoid of ADHB values. There lacks clear goals in the area of recruiting more Maori and Pacific employees. This is strongly felt to be needed by the respective teams and existing Maori and Pacific workforce. Connected to this is the very real need to concentrate efforts in promoting health careers to students whilst at school.

\[^2\] Appendix A – Summary of Focus Groups
This EEO programme therefore goes beyond the legislative requirements in order to obtain maximum benefit to the organisation. The actions are relevant to our organisational goals and values, workforce and community. Actions are underpinned by our values manifesting themselves in behaviours, which must be promoted as the programme develops.

5. Desired Outcomes

- An inclusive, respectful and responsive organisational culture which enable access to work, equitable career opportunities and maximum participation for members of designated groups and all employees;
- Procedural fairness as a feature of all HR strategies, systems and practices
- Employment of Maori and Pacific people at all levels in the workplace
- Collaborative partnership with external organisations

Key Success Factors

- An EEO Programme driven by organisational values
- Leadership commitment
- Transparency in all EEO actions
- Consistent monitoring
- Sharing of good practice across regional and national DHBs

6. Current Situation

Workplace profile

The analysis below is taken from KIOSK though this data is not fully reflective of our workforce. There will be an organisation wide Census early 2006 which will seek to address this issue using a self identification process.

Based on information available the following data has been extracted:

Auckland region Population Make-up

Maori = 9% (ADHB Workforce = 3%)

______________________________

3 Of those employees who chose to disclose their ethnicity
4 Extract from ADHB website of population statistics and KIOSK
Pacific = 12% (ADHB Workforce = 7%)

Data shows concentration of employees from Maori and Pacific backgrounds in administrative and nursing roles, though level in hierarchy is unknown.

A general under-representation of Maori and Pacific employees compared to our community is evident. This data is only useful is active measures are taken to address imbalances. The action plan seeks to do this (page 9).
Focus Groups

In order to supplement quantitative data and usefully measure achievements a baseline qualitative assessment was needed. He Kamaka Oranga via their annual organisation wide hui, were able to gain an understanding of Maori employees aspirations and employment requirements. In order to further cement this and to gain a similar understanding for Pacific employees, focus groups were held.

Maori

18 Administrative and Household Staff and 14 Nurses and Technical Staff attended 2 focus groups capturing 10% of the Maori workforce.

Pacific

42 staff attended 3 focus groups. A further 3 completed questionnaires on themes discussed at the groups in total capturing 7% of the Pacific Workforce.

A summary of key points is at Appendix A

Interviews have been undertaken with key senior management\(^5\) to obtain qualitative perspectives of future workforce direction.

Consultation and Evidence Base

- The Action Plan is in line with Actions for Future Maori and Pacific Health Gain\(^6\) which has involved consultation of staff.
- The Combined Health Union Executive have been informed about the programme via its quarterly meeting
- He Kamaka Oranga and Pacific Health have been involved in this project from its outset
- Interviews with senior management across the organisation have identified strategic direction for Maori and Pacific workforce development
- Attendance at Focus Groups have involved consultation and provide evidential support to actions

7. Compliance and Progress

---

\(^5\) See Appendix B
\(^6\) ADHB Draft Strategic Plan, page 28
ADHB are required by the Act to report on the extent of its compliance in its annual report. In its Draft Strategic Plan, ADHB states its principles of “all parties accountable for policies and programmes”. For this programme to succeed it must be fully embraced and visibly endorsed by the Board, and the Executive Management Team with commitment to its actions and monitoring of Key Performance Indicators (KPIs).

Delegated responsibility for progression of actions will lie with the Workforce Planning and Development Committee. However the Executive Team will hold overall responsibility to the aims of the EEO programme.

The action plan is categorised by broad themes and is supported by the above evidence.

---

7 Refer to Appendix C for details of report
8 Draft Strategic Plan, page 10
Action Plan/EEO Programme
January 2006 – January 2008

Due to the many initiatives that could occur in line with the EEO programme, actions in *italics* are considered from evidence collated, to have a lower priority. However it is strongly noted that these still of utmost importance in the success of the EEO programme.

HEALTHCARE COMMUNITIES, QUALITY HEALTHCARE
STRENGTH IN DIVERSITY
8. **Recommendations for Executive Team**

   **Open commitment to EEO aims**

   8.1. **Endorsement of Roles and Responsibilities as below:**

   **Board Members and Executive Team**

   - Actively and openly endorse EEO principles and commitment to aims
   - Promote benefits of diverse workforce
   - Provide strong leadership with EEO actions
   - Oversee progress against actions
   - Provide resources for becoming a “good employer”
   - Equip managers with delegated responsibility to carry out EEO actions

   **Line Managers**

   - Input on consultation around EEOs.
   - Implement EEO actions within work areas
   - Proactively encourage and support their staff in understanding EEO principles and actions
   - Show accountability and transparency in EEO actions

   **HR**

   - Produce 6 monthly Executive Team progress reports.
   - Work with HR Commission on producing reports.
   - Provide technical advice and support to HKO, Pacific Health, Managers and Executive Team in relation to EEO.

   **Sub-committees and teams**

   - Take action in line with EEO programme
   - Represent own speciality areas in order to progress actions
   - Feedback to HR and Exec team on progress against actions.

   **Employees**

   - Support EEO Programme, attending training
   - Take opportunity to input on EEO programme and actions
   - Applying EEO principles in their daily work with colleagues and clients
   - Acknowledging and embracing differences in colleagues
• Update union members with EEO progress

8.2 In principal funds dedicated to achieving EEO aims
8.3 Agreement of reporting process to Executive Team
8.4 Agreement of Actions (if possible at present time)

Appendix A

Summary of Key Points from Focus Groups

Maori Employees

What more could ADHB do to make you stay?

More in-house training to develop ourselves.

• Up-skilling - enrolled nurses become registered, developing orderlies into technicians etc.
• Opportunity to attend network groups
• When joining have an introduction hui
• Stronger leadership is needed
• Recognition and value for us as Maori employees
• Feedback on how we are progressing whilst still in the job, not when we are leaving the organisation.
• Mentoring programme.
• When we leave, we should be replaced with other Maori staff.

What could we do to attract more Maori people to our workforce?

• Need to develop more Maori undergraduates into the workforce, mentoring programmes (with University)
• ADHB should be proactive with schools, universities attracting younger people. Having a group of Maori employees (all disciplines) and go visit the schools, describing the career pathway.
• Include Maori at the recruitment process
• Target Pacific and Maori festivals and community events e.g. Pacifica day, Polyfest.
What practically could the organisation do to help you progress?

- Development path for people in non-clinical roles and also pathway for enrolled nurses to become registered
- Need to give Maori opportunity/choice to progress if they want – look within the system
- Information on what training is out there.
- Managers should ask their staff what they want in terms of development
- Automatically feedback to people on why they don’t get jobs
- Enforce the policies that exist at the moment
- Somewhere quiet where we can think and study

Do our Equal Employment Opportunities statements have value to you to you?

- Management don’t always know that it exists
- Should have specific mention of Treaty within the EEO statement so that managers and employees cannot manipulate it
- Should have monitoring of who applies and what stage they get to in the recruitment process. HKO and HR should be looking at this actively and analysing
- Need to have access to IT to see the statement.

Pacific
What more could ADHB do to make you stay?

- Funds, money.
- Create positions for Pacific employees at all levels in organisation.
- Feel recognised to do “informal work” e.g. interpreting but not acknowledged
- At the moment only bi-cultural policy, not multi-cultural.
- More regular forums to share concerns, ask questions to escalate up and reduce feelings of isolation.
- Feel my heritage is not valued across organisation.
- Training to up-skill
- Transparency with processes.
• At training events give a certificate to show attendance, so when move organisation this is recognised.
• Feedback on what progress has happened
• Pacific Orientation so that employees know about our culture as well as Maori
• Management need to be accountable for their decisions
• Regular appraisals

What could we do to attract more Pacific people to our workforce?

• Scholarships
• Need route for Pacific employees to get into management and clinical leader roles. Is a barrier/block to management, get to certain level and no further
• Real feedback on why we don’t get roles
• Need to have Pacific people on panels
• Word of mouth is important. Start treating your staff well and this will pass on
• Value the loyalty that we show to ADHB as Pacific employees
• Expos to advertise ADHB to Pacific people

What practically could the organisation do to help you progress?

• Career path for all roles. ADHB should have route to move to top if you have the will and desire to do that.
• Make feedback more specific
• If there is a Pacific person coming into the interview, then we should have a Pacific employee as a representative on the panel.
• Short and long term goals established and realistic planning in place to reach these.
• A mentor scheme to help those who want to develop and need a push
• Promote environment where growing in role is encouraged not looked down on.
• Managers should be proactive with asking about development of their staff.

Do our Equal Employment Opportunities statements have value to you to you?

• Needs implementation, systems and processes. People need to be in place so that it is put into practice e.g. workshop
• Statement should have examples, says recruitment, but give us an example of what will happen.
• Need to promote EEO and the statement inside and outside organisation
• Translate statement into different languages i.e. Samoan, Fijian, Gujarati.
• Need to consult with Pacific employees on this statement and other statements/policies/procedures
• Have some statistics on numbers of staff in categories in the document and see if they improve over time
• Have someone that can turn to for help and advice and mediate that is Pacific (don’t want to go to union as it might not be as serious)

Appendix B
Appendix D
Policies, Procedures, Guidelines and Written documents - Impact Assessment Template

Adverse impact occurs when an employer uses a practice, procedure, or test in a selection process which disproportionately excludes members of the target group (Maori and Pacific Employees). This process involves a level of subjective judgement, however all actions must be supported by evidence. All new policies and procedures must be ratified by the Ad Hoc policy group\(^{18}\).

<table>
